

Applications are now open for the Artificial Intelligence Hackathon - Digital Skills Festival 2025

14/05/2025

All students, tech enthusiasts, and professionals are invited to apply for the **Artificial Intelligence Hackathon**, taking place as part of the **Digital Skills Festival 2025**, from **May 21 to May 23, 2025**, at **ITP Prizren**.

This Hackathon is organized by the **Faculty of Computer Science at "Ukshin Hoti" University of Prizren**, in collaboration with **other public and private universities in Kosovo**, as well as **industry partners**, and is part of the **ERASMUS+ LAIA project**.

The goal of this event is to encourage **innovation and the development of creative solutions in the field of Artificial Intelligence**, through teamwork, inter-institutional collaboration, and professional mentoring.

This entire initiative is made possible through the support of the **Innovation and Training Park - ITP Prizren**, which also offers **accommodation for interested participants** during the event days.

☐ **Apply now via the official link:**

Don't miss this opportunity to be part of a unique event that brings together talent, creativity, and cutting-edge technology!
